

Shippers Trust Transfix

Leverage technology to maintain a high-quality, safe carrier network that meets rigorous safety and compliance requirements on ongoing basis

HOW TRANSFIX PROTECTS YOUR BUSINESS

Mid-Sized Carriers

Our carrier network is made up of 70% mid-sized carriers with 2-100 power units. By partnering with these carriers, we offer the reliability of an asset-based carrier and dynamic flex capabilities.

High Compliance & Safety Standards

We extensively vet all carriers in our network and verify all information with third-parties to ensure we only work with the best. Plus we monitor safety ratings and insurance statuses on an ongoing basis.

Algorithm Carrier Matching

Leverage technology to arrange the best carriers for your shipments based on lane and customer history, price, service, compliance needs, and other key factors, leading to better service for shippers.

Core Carrier Program

Our most exceptional carriers are invited to join our Core Carrier Program, where they get increased access to freight. Shippers get more consistent carrier coverage leading to high on-time delivery thanks to greater familiarity with shipper processes and facilities.

“Through Transfix, we’re able to work with the same quality carriers on most of our shipments. That carrier continuity has led to better on-time deliveries thanks to their familiarity with our processes and facilities. When scaling a business, you need a partner like Transfix.”

OUR RESULTS

99.9%
of loads move
claim-free

WHY THIS MATTERS

Through our safe, high-quality carrier network, Transfix helps you:

**Protect your
brand**

**Provide excellent
service**

**Increase
sales**

HOW WE COMPARE

Qualification	Industry	Transfix
Collect W-9, Operating Authority, Insurance Certificate, and signed Broker-Carrier agreement	✓	✓
Disqualify FMCSA “Unsatisfactory” carriers	✓	✓
Disqualify FMCSA “Conditional” carriers	✗	✓
Require \$1M minimum automobile liability insurance and \$100K minimum cargo insurance	✗	✓
Require 3 references during onboarding	✗	✓
Verify all carrier information with FMCSA SMS and Carrier 411 profiles	✗	✓
Monitor FMCSA status and safety rating on an ongoing basis	✗	✓
Automatically flag expired insurance based on certificate expiration dates to prevent carriers from bidding or accepting loads	✗	✓
Automatically incorporate Shipper and Shipment-level compliance requirements in carrier selection	✗	✓
Disqualify carriers who fall below Transfix performance standards	✗	✓

About Transfix

Transfix is the leading digital freight platform connecting shippers to a national network of reliable carriers. We drive the future of our industry by using cutting edge technology to partner shippers with trusted carriers while reducing empty miles to help eliminate waste. We don't just move freight - our expert team works hard to gather and analyze data with every load booked to help elevate and optimize the supply chain from start to finish. Based in the heart of NYC, Transfix was named one of Forbes' "Next Billion-Dollar Startups".
